my name is Le Tuan Tu. I am living in Vietnam I also have a pair of Coral BX-1201 too. I am a sailor so I have chances to travel here and there and some day when my ship calling at a port in Singapore I bought those speakers for about 35 USD. It still working very good (100W each) and in good looking condition (just a little bit dirty). Thank to your answer that I know it was made since 1971. It is 6 years older than my age. I will use it carefully so that it will last until I relay it to my son. If you need to see my pair of speakers, I will send its picture to you
