Subject: Dynauido crosover design Posted by Garrett Roach on Sat, 04 Nov 2006 03:40:35 GMT View Forum Message <> Reply to Message

I plan on building a two way speaker using dynauido drivers, D28/2 tweeter and 17W75 8 ohm(not the 17W75XL 4 ohm). The enclosure will be sealed with a volume of 19 to 28l. Does anyone know where I can get a good crosover design for this configuration. ThanksGary
