Subject: Audio Physic Yara vs. Yara Evolution Posted by Scowcroft on Fri, 21 Sep 2007 23:31:28 GMT View Forum Message <> Reply to Message

I went to a dealer and they had the Audio Physic Yara Evolution for sale for €1000,- (which is not bad i think). The thing is they said they preferred them over the Audio Physic Yara's. I decided to do some research on the net where, in the (few) reviews i found, the Evolution always came in second. So now i'm confused.Did any one by any chance give these 2 a comparative test?Thanks in advance.
