Subject: Tannoy 10" Monitor Red LSU/HF/III-LZ Cornetta Cabinet Posted by Ross Rakoff on Tue, 30 Oct 2007 22:28:57 GMT View Forum Message <> Reply to Message

I picked up these speakers. I have never heard sound like this. I connected them to my HK a50K Tube amp. Is this a good match? What Impedance should I set the amp to? 16, 8, or 4? Any info on these speakers would be great. Thanks....
