Subject: Re: Speaker Output (volume) Posted by Wayne Parham on Thu, 07 Aug 2008 17:57:42 GMT View Forum Message <> Reply to Message

If they're all equal sensitivity, the pair of 8" drivers will be louder. However, if the 10" is much more efficient than the 8" drivers, it may be louder.By the way, if you're using a pair of drivers, stack them vertically and group them close together.
