Nice pics, and interesting way of using Heresy's. I'm curious, how would you describe the difference in sound between the Heresy's and the 2-Pi's? I listened to a pair of 2-Pi's a year or so back and was impressed, but I never had a chance to hear them and Heresy's together, and I bought the Heresy's several months later and my sonic memory is weak. Dave
