Subject: slow sine + dont lose your hearing :-P Posted by Mike.e on Thu, 01 Jan 2004 01:56:08 GMT View Forum Message <> Reply to Message

Hi waynel used sinewaves, but they are 5seconds long with no pause to let u switch range! i didnt realise it took so long to read display, change it if need be and write it down before the next tone :P125db at the horn mouth like this^^
