AlsoFR, is just one of the many things to measurenow that you have a great flat responsewhy not listen to a fullrange speaker that people love, and compare it.simplicity no x over, see if it appealsA moderately flat response i want, but i dont want to sacrifice other things to get that. The listening room affects so much...Its interesting to hear...I plan on building a horn system in the future ,, up to 16khz like adrian macks.:-)Cheers!!
