Hi Everyone,The Jan 2004 issue of stereophile reviewed the Legacy Focus speaker ($6200 a pair) very favorably. This is a non-horn design utilizing I think 7 (SEVEn) drivers in a 5 way configuration. Apparently sounds awesome...and it's 96db sensitivity. I was just wondering if anyone has heard a Legacy setup on our NG, sounds like I would love to hear it off against the 104 DB klipschorn, and Wayne's Theater Pis (3 way design!) to see differences. thanx-akhilesh
