Sometimes I get lucky :-) At the same time I picked up a full peach crate of vinyl for two bucks. Trouble is it's all 12" disco EP's. That's OK though, I'll take them down to the local vinyl shop and use them as store credit for something good.Any suggestions for an affordable horn and driver? I was looking over at MCM and they have a couple that look interesting but they sure don't give any details on them. Or would I be better doing the vintage eBay thing?Thanks.Scott F.
