Subject: Re: New part files and viewer Posted by hulkss on Mon, 24 May 2004 04:27:24 GMT View Forum Message <> Reply to Message

I downloaded the free publisher from ModelPress. Then I opened my ProEngineer Student model file with ProDesktop Express (got it last year when it was free) and exported the model as a VRML file. Then the free ModelPress publisher converted it. Kind of a hassle but that viewer is great and the model files are small. ModelPress Publisher
