Since you're going to use the JBL 2405, I'd probably go with the JBL 2426 as my favorite. It's a great sounding tweeter. For best performance for the cost, I like the Eminence PSD2002. I really like that part, especially for its extended frequency response. That won't matter much to you since you'll have a super tweeter. But nevertheless, I think it is a good tweeter, especially for its low cost.
