Subject: Re: Scoops Posted by Bill Fitzmaurice on Fri, 03 Sep 2004 17:50:38 GMT View Forum Message <> Reply to Message

What gives is that they didn't do what you thought they were. If by scoops you mean rear-loaded J horns if they were that short they were adding something to the bottom end beyond what a vented box would, but mostly the drivers were operating in a direct radiator mode.
