Subject: Re: I'm using one... Posted by Mike.e on Wed, 17 Nov 2004 08:25:07 GMT View Forum Message <> Reply to Message

An interesting paradox, is that while the bandpass gives lower overall excursion, keeping the driver in its linear region, the overhang is as bad as ported, and worse. I think that a flatresponse bandpass subwoofer, will have ok subjective quality, better than most! Of course given the choice id have both horn + sealed/dipole, none of that high order roll off rubbish
