The D140 T/S specs are similar to the JBL 2205, so you can use it in cabinets designed for JBL 2205. If you're interested, send me your E-Mail address and I'll send you some plans.Vas 10.5ft3 Qms 5.0 Qes 0.22 Qts 0.21 Fs 30Hz Sens 98dB/W/MMax Power 150WrmsYou might want to confirm these specs though, as there are no JBL D140/E140/K140 recone kits available and so any repairs would have required a substitution or aftermarket kit.
