Said it before and I'll say it again, i have both pairs of woofers, (5158g and 416 8c and while both sound fabulous, I prefer the 416 drivers. The guys on the Altec users forum don't seem to agree with me for the most part however, so you results may vary. The 515s of mine are more massive, and are truly almost sculpture, but I like the 416s better by a very small margin. The altec users forum advised me the 515 would need to be "equalized" and would then better the 416. Whatever both are great. Regards,Russellc
