I'm looking for TAD TSM 1 (=Pioneer Exclusive 2401, 2*15" TL 1601a, TD 4001 compression driver and TH 4001 horn, TN-1 650 Hz crossover)monitor cabinet plans and crossover plans and would welcome any comment or description of DIY realisation of these speakers or similar speakers (TSM 1 and TN-1 are now discontinued by pioneer/TAD).Thanks.
