This is a repost for any who missed my earlier message seeking those interested in speaker DIY in Wisconsin. Since the forums fill up very fast I am going to repost once a month for a few months. I have compiled a mailing list from those who have already shown interest in having some contact with other hobbyists nearby. Just send a mail to lon@athenet.net and I will add the name. As I write, there are no events scheduled, but we have done a bit of meeting and greeting in the mail. I am also getting an idea of the demographics of where the interest in the hobby lies. This helps in determining where to schedule get-togethers. Here is a list of the places I am posting this message: No doubt I have missed some important ones. Please feel free to mail me with additional locations either for speakerbuilding or Wisconsin to catch areas I may have missed.
