Subject: Bringing some amps

I've had a change of plans.  Alona wants to come, and doesn't want to ride on the motorcycle.  So we'll come in the car and I'll throw a few amps in the back.  I'm not going to lug any speakers this trip, but I'll bring some of the amps from GPAF, in case anyone wants another look.  Those were the Nelson SE8, Stoetkit and ProFet.  I don't think I'll bring the Audio Note amp this trip.  David Cope has said he plans to send some Audio Note equipment for one of the next audio club meetings, so that will give people around here a chance to hear Audio Note gear next time.
