Steve,Are these the SP-12, or the SP-12B or SP-12C? I had a pair of SP-12C's several years ago and just loved them. Wish I'd have kept them. I still own some LS-12's and LS-8's, somewhat less expensive than the SP range, but built to the same high standards. I love them, too. Very natural sounding on OB's.Dave
