There are several used pairs of CD Horns for sale near me.I am thinking about building a Hi Efficiency speaker around either my Cornwall woofers, or some Altec 421A's.I have a Rane active crossover that provides CD EQ if needed.I have never heard a CD Horn in a home setting, and wondered if anyone has compared them to say an Altec 511 or 811 ?I was looking at some Altec Manta Ray and big JBL CD horns.Any thoughts ?
