Subject: Re: Shearer Horn adaptations for subbass use <100Hz Posted by David Laveau on Mon, 21 May 2007 16:21:23 GMT View Forum Message <> Reply to Message

unfortunately I have not, I think that Paul Bell tried to get some far a PSW shootout a few years ago, but he couldn't find anyone that had a "real" pair that would drag them out to the fun....and the builders tend to be very secretive about the box(totally understandable, I guess)
