Subject: Horns vs Arrays Posted by Gilipsie on Sat, 01 Dec 2007 21:15:01 GMT View Forum Message <> Reply to Message

Could someone tell me he pros and cons of horns verses arrays? I know they aren't mutually exclusive but I'm talking home use and I think a horn array would be too big for my home. Comparing an array of regular cone or ribbon drivers with a 2way or 3way horn speaker, what are the advantages and disadvantages of each?
