Subject: Re: Now _this_ is sculptural Horn with No name followup Posted by Ion on Sun, 11 Apr 2004 18:15:10 GMT View Forum Message <> Reply to Message

The link below references Yamamura/Lowther as the possibleproject originator.Project cost in time and materials is likely significant.A project a couple years ago in Speakerbuilder featured aproduct called Kerfkore which had kerfs precut into the the sheeting for bending purposes. Timberflex(tm) is also referencedas a source of forming bends. http://f18.parsimony.net/forum31999/messages/67487.htm
