I was Googling Jordan 92's and came across your winner with ribbon. Congrat's. I keep coming back to a single driver but my only experience was with the 4" Fostex 103E that sounded like a clock radio above Middle C. How would you characterise the Jordan?I haven't got the funds for the kit with AC ribbon but could swing the Jordans and build a cabinet. Use the Jordan Factory TL plans.Then maybe add the ribbons. Worthwhile?
