---

I have been looking into single driver speakers and found things like Beauhorn and Brentworth Labs that are kind of out of my price range. There are also small speaker makers (don't know if that is the right term) like Common Sense (lowther and fostex based), Decware, Bob Brines (FT-1600, FT-2000) Ed's Horns in SC. I was wondering if any of you had thoughts about any of these products or some other ideas of speakers to look at. I think my main problem is that I am out here in Omaha, NE with no opportunity to audition speakers I would like to look at and the thought of buying something sight unseen is scary. Thanks for any ideas. Oh, I'm not an audiophile or anything so you may have to talk down to me. Thanks.
