Fred,I was looking to purchase some fostex 167e drivers and Madisound was out of stock for a month or two - so I took a chance and ordered the Audio Nirvana 6.5" ones instead. I haven't had a chance to set up a baffle to mount them in so I can't comment on their sound, yet, but am very interested following your progress as your drivers break in. For me, I already have a rear loaded horn for my 206e drivers, so I wanted something I could build a small ported box enclosure for.Scott.
