New scuttlebut is that Adire has a new full range for pre-order called the Extremis 6s. I haven't seen any previous discussion on it. Perhaps some opinion can be generated here. After a few links that didn't work I found the specs: Fs 30 Hz Qms 2.54 Qes .383 Qts .332 Vas 33.2 liters SPL 86 dB @ 1W, 1m Power 100W RMS/300W Peak BL 9 N/A Xmax 13mm one way Sd 140 cm² Vd 364 cm³ Le 0.13 mH Re 7.02 Ohms
