Hello, I'm considering adding super tweeters to my system and I am not sure if I want to go down that road or not. I have the 9 watt Consonance M500 mono block S.E.T.'s and am contemplating a little more top end. Do super tweeters take up much power? Is the sound going to be worse in respect to having two point sources instead of one? Any suggestions would be appreciated.
Thanks, Pete
