It would be interesting to see in one place a list of all the companies offering line array kits, and in what price ranges. The ones I'm familiar with are GR Research (Alpha LS, about $2,000), Creative Sound Solutions (Needles, about $1,000), and Selah Audio (several kits ranging from the Linus 2 at $900 to the Omegarray at $3,200, or $4,100 with powered subs). Are there any others?http://fredt300b.smugmug.com/gallery/132721/1/4831163
