Subject: Re: Line array crossover Posted by Bill Fitzmaurice on Tue, 14 Sep 2004 19:56:38 GMT View Forum Message <> Reply to Message

A traditional crossover, yes. but keep the slopes at least 3rd order to minimize bandwidth overlap. If it hasn't yet been pointed out a line array midbass with a point source tweeter isn't that good of an idea, as you have different radiating characteristics from the two sources.
