Subject: Re: Open baffle Focussed Line Arrays Posted by \_Wim\_ on Wed, 15 Dec 2004 20:02:13 GMT View Forum Message <> Reply to Message

Hi,For the moment there is no crossover (I use them fullrange). When the Neo8pdr are finally connected, I will use a 6db/oc series filter. As the neo8 can go reasonably low, and the fullranges reasonably high, I think (I hope )this will be an ideal combination.Best Regards,Wim
