Subject: Jim Griffin's Needles Posted by GarMan on Wed, 25 May 2005 19:19:40 GMT View Forum Message <> Reply to Message

Jim Griffin designed a single tweeter line array using this driver and was available as a kit from creativesound.ca for a while. Not available anymore.There's a few post on this board about it. Just search for "needle". I bet if you ask real nice, Jim will share the plans with you.gar.
