I'm looking to put together a line array for PA in small clubs. Odd shaped rooms with tight stage area. Like a Bose PAS but cheap - real cheap. I ran across these: <http://www.mcminone.com/product.asp?catalog%5Fname=MCMProducts&product%5Fid=58%2D9935> What do you think? I can put together a sub to with them, but does anybody have an idea for suitable tweeters? Thanks,
