I'm looking to put together a line array for PA in small clubs. Odd shaped rooms with tight stage area. Like a Bose PAS but cheap - real cheap.I ran across these:http://www.mcminone.com/product.asp?catalog%5Fname=MCMProducts&product%5Fid=5 8%2D9935What do you think?I can put together a sub to with them, but does anybody have an idea for suitable tweeters?Thanks,
