My rule is;Same tweetersSame midrangesSame woofersSame subwoofersI wouldn't mix different tweeters, mids, woofers.I woldn't make a woofer array of 7" drivers, then add a 12"- just because - into the same box doing the same job. Eitherbandpass both to do their own seperate job or make a full array of 7"or a full array of 12".Common sense rules.
