Subject: Re: Pinging Griffin - Linus Plans? Posted by Rick Craig on Sat, 19 May 2007 16:34:07 GMT View Forum Message <> Reply to Message

Chris,Having co-designed the Linus2 with Jim I think you can now get better performance with implementing a different woofer. This will of course change the crossover and cabinet design but I would be willing to do a new design at no charge. This offer always applies to anyone else that's interested. Feel free to email me if you would like further information.
