Subject: Re: Pro line arrays Posted by Crystal on Tue, 13 Nov 2007 17:30:01 GMT View Forum Message <> Reply to Message

That looks very nice. I was wondering if I could use an array kit like ART or Selah or something like that for live sound, if I didn't exceed power ability. I think I would need a subwoofer but I am wondering if it will sound right if used within its limits or if there are fundamental differences between nearfield line arrays for home listening and live sound line arrays.Thanks,Crystal
