Hi malboroYeah I hear you.Taken 40 years of building speakers to get where i am now.This is my fourth set of line array's.Previous set had 84 dome tweets per side.I offered these to you just to get a opinion from someone who has experience with line's.They are neither dome's nor ribbon's.Not trying to sell you anything.I give them to you and will pay shipping to where ever you live.Sunny.
