Hi malboro Yeah I hear you. Taken 40 years of building speakers to get where i am now. This is my fourth set of line array's. Previous set had 84 dome tweets per side. I offered these to you just to get a opinion from someone who has experience with line's. They are neither dome's nor ribbon's. Not trying to sell you anything. I give them to you and will pay shipping to where ever you live. Sunny.
