Hi guys, My name is Chris Brunhaver and I head up OEM sales here at BG. While we are committed to the DIY market and have partnered with Parts Express, GR Research, Meniscus Audio etc. to better serve this customer base, unfortunately, we have no plans to release the NEO10 to the DIY market at this time. We have sent some units to selected OEM customers using them in finished products and I assume Rick got one from one of them. Feel free to give me a call or email with any questions. Thanks, Chris Brunhaver
