---

I found a set here locally for sale, and have always wanted a pair of these. I am very concerned about parts availability of the Emits and Emim's. Does anyone know how long their life span is ? I bought an old Infinity QRS 1 and the Emim tweeters sounded almost rolled off, and dead. Do these go bad over time ? The woofer surrounds appear to be all there, possibly refoamed. My good friend here in Tampa has the Big IRS in his home, and its awesome. Any advice ?
