Subject: Measuring Mmd Posted by kaddy on Mon, 23 Oct 2006 12:10:01 GMT View Forum Message <> Reply to Message

Hi, This is my first post on the audio round table. I would like no know which parts are in be included in Mmd.Do you weigh the cone, coil, spider, surround, dust cap and lead in wires (everything that moves). Or is Mmd just the weight of the cone. Thank you Wanye for the email about crossovers with large inductors making amp protection systems trigger early. Thanks, kaddy.
