Subject: Montgomery Ward Airline model 62-307 or 407 Posted by Dan Bell on Sat, 15 Jan 2005 14:26:58 GMT View Forum Message <> Reply to Message

I was wondering if anyone had any pictures or information about the Airline 62-307 or 407 cir. 1938. I have one that has been in the family forever and remember when I was a kid my dad listening to a station in Ecquador on the shotwave all the time. It is in very good condition. I am having the speaker re-coned and cleaned. It is a console with the tuning eye in the middle at the top. AM/FM and shortwave four knobs. Does anyone own one of these models or have a picture they could send? I would be curious to find out the value. When I get everything back together, I can post a picture. Thanks...Dan
