Subject: my wards airline stereo inquiry Posted by Kimberly G. on Thu, 17 Mar 2005 00:36:04 GMT View Forum Message <> Reply to Message

I somewhat inherited a Montgomery Wards Airline Solid State Stereo. There's a tag on the back that says model number: GAI-2435B and manufactured March 4, 1975. It works beautifully and sounds great! I wanted to know how common these are and what kind of value, if any, it has? Any other information would be helpful too. Thanks in advanced for your help!!!
