Hi: I too am working on a RCA 128. The best place for a set a schematics for the 128 is [www.justradios.com](http://www.justradios.com). They will supply SHARP factory schematic which are more detailed than Riders and the price is about \$5.00. Note that the 128 had several production changes where capacitors were added or completely removed. Before ordering schematics find out what set series you have.. Good luck!
