Subject: Unknown RCA Victor Wood Table Radio, need model! Posted by kb9snl on Sun, 02 Apr 2006 00:25:13 GMT View Forum Message <> Reply to Message

This radio was found at a local farm auction for \$1 in 2003. It is an RCA Victor, model unknown. I have it disassembled now. As rough as it is (one side of the cabinet is completely detached), the chassis is still somewhat functional, on AM only. It does include shortwave as well. What I am looking for is a model, or even a similar radio. Has anyone ever seen this particular radio in the wild, or even one with the same cabinet design? I've run across radios with the same knobs in photos today. I've spent almost 2 hours going through websites, and even eBay, looking for a photo of this model of RCA Victor radio. More info is availiable at my website, www.backwoodrealm.comAnyone have any ideas on this one?~Tim http://www.backwoodrealm.com
