Honestly, most old tube radios do not sell for much money. There are some collectable radios, certain models are highly sought after. Some that are worth the most are those that very old, some that have novel cases, etc. But I think the biggest thing about antique tube radios is they're nostalgic.If you don't want to keep the radio, list it in the SwapMeet forum. This forum is for those that are interested in their tube radios, looking for help fixing them, restoring them, etc.
