To answer your question more acturately, you would need to provide a photo..... Your set, if it were the DELUXE model 20 is nice restored condition could value at $450 or more. If its a DELUXE.... If it is the plain or common model 20 restored it would be hard to fetch $250 probably less. In the condition you described either model is likely worth less then $50.00, especially if the grill is broken.
