hi thank for the reply, yes the dome is 25mm and the magnet 70mm.heres a pic of the rear of the unit and the 'mounting plate'theres a 4 digit number, 7810 I think. But it seems to be a serial number rather than a code number,because the other good tweeter has a different number stamped on it.cheersalan<http://homepage.ntlworld.com/quad303/images/tweeter2.jpg>
